

## Fuel Polishing System - Always Clean Fuel Always Safe Engines

### Mobile System For The Service

- Flow rate of 1200l/h - 317GPH
  - 2x Water separator for the water in the fuel
  - 2x 2 $\mu$ m filter to filter bacterial and slut
- 
- easy to transport
  - easy filter change because of the turbine filter
  - 230 V DC pumpe
  - Vacuum gauge for the filter clogging

**We have also the same system with a  
Ultrafine filter with 0.5 $\mu$ m filter and an  
extra water separator!**
